**DETAILED ACTION**

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1 is, claims 1-13, drawn to an alloy containing Cu, In, Ga, Se, and S.

Group 2 is, claims 1-3 and 14-23, drawn to an alloy containing Cu, In, Ga, and Se.

Group 3 is, claims 1-3 and 24-32, drawn to an alloy containing Cu, In, Se and S.

Group 4 is, claims 33-35, drawn to a semiconductor film.

Group 5 is, claims 36-37, drawn to a photovoltaic cell.

The inventions listed as Group 1-5 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical features of Groups 1-3 are different copper alloy compositions with different elements and proportions. The special technical feature of Group 4 is the semiconductor film which serves as support for an alloy. The special technical feature of Group 5 is a photovoltaic cell. All special technical features in each Group do not correspond to each other. Unity does not exist between Groups 1-5.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
